

ALEC SCHNEIDER

Mechanical Engineering Student

linkedin.com/in/alec-schneider | 602-500-2622 | alecschneider@outlook.com | Orlando, FL 32816

SKILLS

Engineering and Technical: Computer Networking & Troubleshooting | CAD: SolidWorks (CSWA Certified) | Process Optimization & Workflow Management | Safety Compliance & Risk Awareness

Software and Professional: Microsoft Office Suite (Word, Excel, PowerPoint) | Critical Thinking & Analytical Problem-Solving | Team Communication & Collaboration

CERTIFICATIONS

- **OSHA | 10 Hour Safety:** Understanding of how to recognize, avoid, and prevent workplace hazards.
- **SolidWorks | CSWA:** Part and assembly creation, dimensions and features, analysis and properties, drawing and communication.

EDUCATION

University of Central Florida

Bachelor of Science in Mechanical Engineering | GPA: 3.75

Expected Grad: May 2029

Student Organizations

- SolidWorks Student Leadership Program
- American Society of Mechanical Engineers
- First Step UCF

Academic Accolades:

- Deans List - Spring 2026
 - Maintained a GPA of 3.50 or higher throughout the academic semester.

PROFESSIONAL EXPERIENCE

Jeff's Bagel Run | Bakery Team

Jan. 2026 - Present

- Operated and maintained kitchen equipment, ensuring reliability and adherence to safety protocols.
- Coordinated order workflows to improve efficiency and reduce preparation times during high-volume operations serving 100+ orders per hour.
- Applied attention to detail and quality control to maintain product standards.

Sonata East at Viera | Server

Apr. 2025 - Jun. 2025

- Managed multiple tasks under time constraints, applying process coordination to deliver consistent service quality to 4+ tables at a time.
- Adhered to strict health, safety, and sanitation protocols in alignment with operational regulations.
- Communicated with cross-functional teams to ensure accurate and timely service delivery.

Urban Air Trampoline Park | Crew Member

Jan. 2023 - Jul. 2023

- Monitored and operated 4 attraction systems, ensuring compliance with safety procedures.
- Troubleshooted equipment and process issues, reducing down-time by 50% and enhancing efficiency.
- Collaborated with team members to manage workflow and optimize guest throughput.

Giano's Pizzeria | Pizza Cook

Sep. 2021 - Nov. 2021

- Operated and maintained kitchen equipment, ensuring reliability and adherence to safety protocols.
- Coordinated order workflows to improve efficiency and reduce preparation times during high-volume operations serving 20+ orders per hour.
- Applied attention to detail and quality control to maintain product standards.

LEADERSHIP & PROJECTS

ASME Sumo Bot | Team Coordinator

- Coordinate and plan meetings depending on the schedules of the 4 members of my team to discuss strategy, design, analyze costs, and address and overcome issues in our design and/or strategy.

TI-RSLK Robot Challenge | Team Coordinator

- Design an apparatus that will transport and propel a rubber duck to a scoring area utilizing a 9-gram servo. Scoring depends on the amount and precision of the ducks delivered to the scoring area.

Great Naval Orange Race (GNORR) | Team Coordinator

- Design, build, and program a miniature autonomous boat that has the capacity to hold and transport a naval orange fully around the UCF reflecting pond. Our design and final product won 3rd place out of 450 total students in the UCF Engineering program.

Sugar Rocket (Independent) | Team Coordinator

- Design and build a sturdy, yet lightweight rocket with heat resistant materials such as graphite for the nozzle. Currently in the design stages of this project: Calculating nozzle subsonic, sonic, and supersonic diameters to maximize thrust; Designing the combustion chamber; Designing a remote activator.
